

Fall Away Bar

Hospitality | Residential Use

OverNighter™ 10000 Series

Superior Design - exceeded and surpassed GSA Test FNAE 80-214A heavy service acceptance level.

Construction - tubular and roll-formed to provide maximum strength.

Fall-Away Bar - eliminates the number one customer complaint of mid-back discomfort caused by the shoulder tube.

Deep Cavity - unit will accommodate 6" mattress

Double BedSecure™ Safety Feature - utilizes an anti-topple feature designed to keep the sleeper unit stationary and the legs secure for support.

Dual-Locking "TV" Position Headrest - head rest positions and locks securely in place to provide back rest for watching television or reading. **(Available option for Residential Unit only.)**

Soft Lock - reduces the amount of pressure required to close and lock the sleeper in place, eliminates the "snap" effect.

Baked-On Enamel Finish - dark charcoal finish provides a more aesthetic appearance and coordinates with any fabric or leather color.

Dual Mattress Retainers - holds mattress securely in place onto sleep surface.

Support - torsion suspended wire supports in seat.

Tilt Forward Feature - allows for easy cleaning under the sofa.
