 C Casters    \*    GL Glides    \*    A-GL Adjustable Glides    \*    S-GL Steel Stem Glide

TRADITION, INNOVATION - PERFORMANCE

The Strong Arm Center Support System is designed to reinforce your bed's central area, which bears approximately 70% of your weight. This strategically placed support helps prevent warping, broken wooden slats, and damaged side rails cleats (or lips) that hold your bedding.

Adjusts from full to king widths

Adjustable leg heights  
from 4" to 15.5"

## Product Line Features:

- Premium steel center support system for beds with wood side rails
- Static load tested to over 2,000 lbs
- Quick assembly
- SA 330 - Three Legs Total: This package has three rigid center supports, each with one leg to the floor.

# Bed Frames

(For Wooden & Metal Beds)

C Casters \* GL Glides \* A-GL Adjustable Glides \* S-GL Steel Stem Glide

TRADITION, INNOVATION - PERFORMANCE

## Bolt On Rail

- 15" long— bolt on
- Helps dealers show beds in limited retail space

## Hook In Rail

- 15" long — hook in
- Helps dealers show beds in limited retail space

## Mirror Supports

Slotted. Available in 48" and 60" lengths. Wood screws included.

## Bed Hook

For attaching "slotted style" headboards to metal bed frames. Downward hooks allow headboard to rest on floor for added stability.

## Modification Plate

Allows "old style" headboards to be attached to standard bed frames. Slots permit both horizontal and vertical adjustments.

## Swing Hinges

Allows attachment of two Twin size bed frames to King headboard, creating a "split" King-size mattress set.

## Hi-Riser Leg Kit

Fastens to day bed spring, creating a "free standing" bed. Hardware included.

## Extension Leg

Allows for better accessibility to low profile mattress sets. It also offers more storage area under the bed. The extension leg raises the bed frame an additional 4" from the floor.
